

7Epsilon

One day course on Investment Casting

Date: Tuesday, 16th September 2014

Venue: ICME, NMC, West Bromwich

7Epsilon: Continual Improvement by Optimising Process for defect/waste reduction

What's in it for you?

Learn how to use in-process data to make small adjustments to your process in order to achieve continual process improvement.

Visualise everyday foundry scenarios for discovering new opportunities for continual process improvement projects.

Outline Programme:

- Potential Foundry Applications
- 7 Steps (**ERADICATE**) of 7Epsilon that refine Six Sigma's Measure, Analyse, Improve and Control steps
- Bring your own data (optional)
- Discussion on corrective action plans and brain storming sessions
- Demonstration of how 7Epsilon projects satisfy the requirements of Clause 8 of ISO 9001:2008 quality standard

Visit www.7Epsilon.org for detailed course leaflet.

Who should attend?

Plant Managers, Quality Managers, Process Engineers, Metallurgists, Supervisors and Operators

Participants need to bring their own laptop to perform a study.

Price: £120 plus VAT (*Members of ICME/ EICF/ CMF*)
£175 plus VAT (*non member*)

Price includes all refreshments. Cheques payable to ICME.
